

Christopher Wernli

Web Developer

After several years of working in marketing and customer service the desire to become a software engineer was ignited working as an account manager for IDS, a software company. My diverse background has allowed me to become a proficient learner which has helped me quickly learn new languages and key computer science concepts.

WORK EXPERIENCE

Account Manager IDS (International Document Services)

04/2017 – Present Draper, Utah

A software company that developed a web-based application to help mortgage lenders easily create documents

Achievements/Tasks

- Manage 2 of the top 10 accounts and 3 of the top 25.
- Code documents based on client requests to make them unique and compliant.
- Write custom code for clients to print an additional document, check a particular box, change a calculation, etc.

Ecommerce Marketing Consultant Learning Systems

06/2014 – 03/2017 American Fork, Utah

Taught clients how to sell and market on different online platforms.

Achievements/Tasks

- Assisted clients in growing their personal business online through SEO, social media, and other areas of online marketing.
- Taught clients to research and create a marketing plan to ensure a successful PPC marketing campaign.
- Assisted clients in creating an online business through eBay, Amazon, or a personal website.

Marketing Internship Alta Sol/Brigham Young University

09/2015 – 12/2015 Provo, Utah

Achievements/Tasks

- Created a competitor analysis report for the company Alta Sol to identify strengths and weaknesses in company's online presence in comparison to competitors.
- Introduced a marketing plan for Alta Sol utilizing online (SEO, social media, PPC campaigns) and other marketing means (specific tradeshows to target, specific areas to target, etc).
- Researched, constructed, and physically mapped out a customer profile for Alta Sol's typical customer in their areas of operation.

SKILLS

HTML

CSS

JavaScript

Node.js

React

Redux

PostgreSQL

Python

Knex.js

SQLite3

PROJECTS

Workout Tracker (10/2019 – 01/2020) [🔗](#)

- Workout Tracker is a React web application that allowed users to create and track their workouts. React | Redux | Node.js | Postgres | Knex.js | JavaScript | exrx (a third party) API.
- Worked with 3 other developers remotely to build this application that is being picked up by other developers.
- Built the back end with one other developer, implemented the exrx api, and collaborated to build the workout creation functionality on the front end.

Trip Split (09/2019 – 09/2019) [🔗](#)

- Trip Split is a React application that allows users to split trip costs among themselves. React | Node.js | Postgres | Knex.js.
- Solely created the back end in under a week.

Macro Calculator (05/2019 – 05/2019) [🔗](#)

- Macro Calculator was an application that would allow users to keep track of their macros. CSS | HTML | JavaScript.
- Built the landing page in under a week.
