

# Christopher Wernli

## Web Developer

After several years of working in marketing and customer service my desire to become a software engineer was ignited working as an account manager for IDS, a software company. My diverse background has allowed me to become a proficient learner which has helped me quickly learn new languages and key computer science concepts.

## WORK EXPERIENCE

### Account Manager

#### IDS (International Document Services)

04/2017 – Present

Draper, Utah

*A software company that developed a web-based application to help mortgage lenders easily create documents*

##### Achievements/Tasks

- Manage 2 of the top 10 accounts and 3 of the top 25.
- Code documents based on client requests to make them unique and compliant.
- Write custom code for clients to print an additional document, check a particular box, change a calculation, etc.

### Ecommerce Marketing Consultant

#### Learning Systems

06/2014 – 03/2017

American Fork, Utah

*Taught clients how to sell and market on different online platforms.*

##### Achievements/Tasks

- Assisted clients in growing their personal business online through SEO, social media, and other areas of online marketing.
- Taught clients to research and create a marketing plan to ensure a successful PPC marketing campaign.
- Assisted clients in creating an online business through eBay, Amazon, or a personal website.

### Marketing Internship

#### Alta Sol/Brigham Young University

09/2015 – 12/2015

Provo, Utah

##### Achievements/Tasks

- Created a competitor analysis report for the company Alta Sol to identify strengths and weaknesses in company's online presence in comparison to competitors.
- Introduced a marketing plan for Alta Sol utilizing online (SEO, social media, PPC campaigns) and other marketing means (specific tradeshows to target, specific areas to target, etc).
- Researched, constructed, and physically mapped out a customer profile for Alta Sol's typical customer in their areas of operation.

## SKILLS

HTML

CSS

JavaScript

Node.js

PostgreSQL

Python

Knex.js

SQLite3

## PROJECTS

### Workout Tracker (10/2019 – 01/2020) [↗](#)

- Workout Tracker is a React web application that allowed users to create and track their workouts. React | Node.js | Postgres | Knex.js | JavaScript.
- Worked with 3 other developers remotely to build this application that is being picked up by other developers.
- Built the back end with one other developer, implemented the exrx api, and helped build the workout creation functionality on the front end.

### Trip Split (09/2019 – 09/2019) [↗](#)

- Trip Split is a React application that allows users to split trip costs among themselves. React | Node.js | Postgres | Knex.js.
- Solely created the back end in under a week.

### Macro Calculator (05/2019 – 05/2019) [↗](#)

- Macro Calculator was an application that would allow users to keep track of their macros. I created the landing page but unfortunately the app was never created. CSS | HTML | JavaScript.
- Built the landing page in under a week.

## EDUCATION

### Web Development

#### Lambda School

04/2019 – 06/2020

##### Courses

- Web Fundamentals (HTML, CSS)
- Web Applications (JavaScript, React)
- Web API (Node.js)
- Computer Science (Python, Data Structures)

### Bachelors of Science in Exercise Science

#### Brigham Young University

09/2011 – 12/2016

Provo, Utah
