WORK EXPERIENCE

Manager of Web Development
Partner.Co

04/2024 - Present

Achievements/Tasks

- Mentor and coach team members to ensure successful performance.
- Manage projects by assigning tasks based on employee strengths and project requirements, reviewing code, and running Agile meetings.
- Using Vue, Laravel, Perl, SQL, and jQuery, I develop new features, integrate APIs, and fix high-priority bugs in our web applications.
- Conduct interviews and hire new developers.

Team Lead, Web Development
Partner.Co (Formerly NewAge)

01/2022 - 03/2024   *Midvale, Utah*

Achievements/Tasks

- Developed new features, integrated APIs, and fixed high-priority bugs in our web applications using Vue, Laravel, Perl, SQL, Angular, Node, and jQuery.
- Managed a team of four other developers by assigning tasks, mentoring, reviewing code, and running Agile meetings.
- Conducted interviews and hired new developers.

Web Developer
NewAge

02/2021 - 01/2022   *American Fork, Utah*

Achievements/Tasks

- Assisted in the development of the company's new website, combining multiple companies into a single site serving global markets.
- Maintained both backend and frontend code, ensuring seamless user experiences.
- Assisted with code reviews before deployment.

Freelance Web Developer
Create Room

12/2020 - 11/2021

Achievements/Tasks

- Created a new home page for their Shopify website using Javascript, JQuery, CSS, HTML, and Liquid.
- Integrated a third-party API (Bread) for finance payment estimates.
- Implemented Vue.js on the /products/dreambox page.
- Transitioned the codebase to GitHub and streamlined the deployment workflow.
- Addressed various bugs throughout the site.

SKILLS

API Integration   Responsive Web Design   Agile   Git

Vue.js   Laravel   SQL   HTML   CSS   JavaScript

PROJECTS

Partner.Co Standalone Checkout (03/2024 - 08/2024)
- Tech Stack: Laravel, Vue, PHP, SCSS, HTML, JavaScript, and Perl.
- Helped plan different phases of the project and assigned out tickets to ensure the project was completed in a timely manner.
- Created the header, footer, sign in module, forgot password module, and customized forms and payments for several different markets.

Partner.Co Rebrand Website (01/2023 - Present)
- Tech Stack: Laravel, Vue, PHP, SCSS, HTML, Javascript, and ButterCMS.
- As a team lead, I organized and coded the project, ensuring design consistency and meeting deadlines.

NewAge Company Website - newage.com (02/2021 - 02/2023)
- Tech stack: Laravel, Vue, PHP, SCSS, HTML, JavaScript, and Perl.
- The website consists of a shop, an enrollment application, and a company section with several company pages.
- I helped build the enrollment process, part of the shop, and several company pages.
